I was born in Moldova in 1989. I have always been interested in people around me. Most of all I like eyes and hands of people, because in them it is possible to read all life of a person, to learn every side of his character. Photography became my hobby in youth and the way to express myself, to discover my soul and to understand the people surrounding me. I got my first SLR camera Canon Rebel XTi (400 d) in December, 2008, so I began to take photos, mostly portraits.

In summer 2008, I won two Moldavian photo contests and I was awarded a remarkable trip to a beautiful city of Lviv, Ukraine. In January, 2009 I became finalist of the European photo contest called Through Their Eyes organized by Karat Coalition. It was my first victory. And in February, 2010 I got my first publication in Amateur Photographer magazine (UK), which I waited for so long.
